

Full South Willingham People Index

The South Willingham History Group have been working on collating the people who are in the village Censuses, Registers, Grave Yard and Electoral Rolls. This enables us to see all the data on that particular person in one place, and to jump to those connected to them easily, giving us the best opportunity to understand their lives in our village. It also allows us, as we have multiple data sources, to amend the data to give us the most probable version of the truth.

This index is the index used in the database file, and is provided here to enable internet searches to find people easily. If you find someone in this list, we suggest you download the data files if you need to know more about them.

The index is comprehensive in that people appear in it multiple times to allow them to be found easily. For instance, if a lady has married 3 times, she will appear in this index under her maiden name and all 3 married surnames, if we have the data. Also, if that lady's forenames are Salome Hilda, but we know (because it is on her gravestone, say) that she much preferred the name Hilda, she will appear under both Hilda and Salome Hilda. So in Hilda's case she will have one record in the database but will appear 8 times in this index.
